### BULLS EMPLOY MASSEUSE

Bulls Baseball Org have moved into the scientific side of sports medicine by employing masseuse Lizzie for the upcoming Games. Lizzie, with the latest hi-tech gismos and gadgets has commented that "this is an area that has let the Bulls down in the past". Heart rate monitors will be assessed every Tuesday and shave downs inspected under the new age lycra suits worn under the uniforms this year. The Bulls will be a formidable unit.

### DRUG TESTING

This year at the Games, drug testing will be more stringent than ever. As can be seen here, with Rocket Ron being tested prior to the Games, there will just be no escape to keep the Games clean. ### BACK TO THE FUTURE

A recent report in another newsletter suggested that Zulu (seen here in his hey day aka 1980's) would make a return to the mound. This report is totally unfounded and can be substantiated by a physio, medical fund and orthopaedic surgeon.

### ALTERNATIVE SPORTS

Bulls players, hedging their bets these Games are also entering "alternative sports". Here can be seen 2 players that have decided to have a chance of gold in the open badminton section. Fierce competitors both of them, they will be warming up their shuttlecocks well before the Games begin.
